Programming Languages: Python(DSA), Full Stack Developer, UI/UX Designer

Tools / Platforms: Bootstrap, Flutter

Databases: Project Management and Collaboration Tools, Problem-solving, Attention to detail, Pressure management and Team Work

PROJECTS / OPEN-SOURCE

Portfolio | Link

HTML,CSS,JS

I have developed and maintain a personal portfolio website to showcase my professional journey, skills, and noteworthy projects. This online platform serves as a comprehensive representation of my expertise, allowing potential clients or employers to explore my work and understand the value I bring to projects. Regular updates ensure that the content remains current, reflecting my commitment to continuous improvement and staying at the forefront of my field

Apple Web Page Clone | Link

HTML,CSS,JS & Framework

I successfully designed and implemented a comprehensive Apple Web Page Clone, showcasing my proficiency in web development and design. This project involved meticulous attention to detail, replicating the aesthetics and functionality of Apple's official webpage. By incorporating HTML, CSS, and JavaScript, I not only demonstrated my technical skills but also honed my ability to create visually appealing and user-friendly interfaces. This experience not only strengthened my grasp of front-end technologies but also highlighted my dedication to precision and innovation in web development.

Freelance Web Page	Link
Freelance Web Page	Link

HTML,CSS,JS & Framework

I independently conceptualized and developed a dynamic Freelance Web Page, showcasing my expertise in web design and development. This project involved a comprehensive understanding of client needs, resulting in a user-friendly and visually appealing platform. Through the utilization of HTML, CSS, and JavaScript, I not only brought the client's vision to life but also demonstrated my proficiency in creating responsive and engaging websites. This experience not only enhanced my technical skills but also underscored my ability to translate client requirements into effective digital solutions, highlighting my commitment to delivering high-quality work in the field of web development.

Generative AI | Link

Python, Open AI API Key

I independently developed a sophisticated Generative AI using Python and OpenAI tools in Google Colab. This project involved leveraging cutting-edge machine learning techniques to create an innovative AI model capable of generating content autonomously. Through extensive utilization of Python programming and integration with OpenAI's powerful tools, I not only demonstrated a deep

understanding of artificial intelligence but also showcased my ability to implement and experiment with advanced technologies. This hands-on experience not only enriched my technical proficiency but also underscored my commitment to exploring and pushing the boundaries of AI innovation in a collaborative and dynamic environment

CERTIFICATIONS

- Full Stack Developer, Python - **NXTWAVE Disruptive Technologies**
